Senior Front-End Developer | Product Tech Manager

Front-End Development (React.js, Next.js, JavaScript, TypeScript) | **UI/UX Implementation** (Tailwind CSS, MaterialUI, Figma-to-Code) | **State Management** (ReactQuery, ReduxToolkit) | **API Integration** (REST APIs) | **Performance Optimization** (CoreWebVitals, LazyLoading) | **Code Quality** (ESLint, Prettier) | **Testing & Debugging** (Jest, ReactTestingLibrary) | **Product Strategy** (MVP Development, TechnicalRoadmaps) | **Agile & Project Management** (Scrum, Kanban) | **Cross-Team Collaboration** (Stakeholder Communication, QA/Designer Alignment) | **Data-Driven Decisions** (KPIs, Google Analytics)

Senior Front-End Developer with 4 years of experience building high-performance web applications, optimizing Core Web Vitals by 40%, and leading Agile teams to deliver MVPs 30% faster. Expertise in modern JavaScript frameworks and UI/UX best practices to align technical execution with product vision.

WORK EXPERIENCE

WayConnect- Sousse, Tunisia

10/2023- 12/2025

Product Tech Manager

Responsible for leading Agile product strategy and managing cross-functional teams to optimize customer service, web development, QA, and UI/UX. Ensured alignment between product vision and business goals for seamless execution.

- Defined and executed an Agile-driven product strategy, ensuring seamless collaboration between customer service, web development, QA, UI/UX, and platform optimization.
- Led product vision and roadmap planning, aligning business goals with technical feasibility and market needs.
- Facilitated Agile ceremonies (Sprint Planning, Stand-ups, Retrospectives), improving cross-team efficiency and accelerating feature delivery.
- Oversaw requirement gathering and stakeholder alignment, translating business objectives into actionable development tasks for optimal execution.

WayConnect- Sousse, Tunisia

03/2022- 09/2023

Senior Front-End Developer

Responsible for building scalable, high-performance front-end games applications using React.js. Focused on optimizing user experience, performance, and seamless API integration.

- Developed and maintained responsive, high-performance front-end applications using React.js.

Mohamed Amine Saadani mohamedaminesaadani79@gmail.com

- Implemented modern UI/UX designs using Tailwind CSS and Material UI, ensuring consistency across devices and screen sizes.
- Optimized web performance, improving Core Web Vitals and reducing load times by 30% through lazy loading, code splitting, and performance best practices.
- Collaborated with cross-functional teams, including back-end developers and designers, to ensure seamless integration and high-quality releases.

Pixelium - Tunis, Tunisia

08/2021- 12/2021

FullStack JSDeveloper

Built and optimized a job-worker matching platform serving 5,000+ daily users, using Meteor.js (React), Node.js, and MongoDB to streamline hiring processes.

- Developed a React-based employer dashboard that reduced average hiring time by 65% through real-time job postings and applicant tracking. *(Core feature impact)*
- Engineered a geolocation job search using MongoDB's \$geoNear, increasing worker engagement by 30% by matching them with nearby opportunities. *(Technical + business outcome)*
- Migrated legacy features to React, improving frontend performance by 40% while maintaining seamless Meteor.js backend integration. *(Framework expertise)*
- Reduced server response time by 50% by optimizing Meteor publications and MongoDB queries, enhancing scalability for peak traffic. *(Backend performance win)*

GoMyCode - Tunis, Tunisia

08/2020- 12/2020

Full Stack JS Developer

Developed a lightweight e-learning platform using MERN Stack (MongoDB, Express.js, React, Node.js), enabling 3,000+ students to access courses with 95% uptime and seamless user experience.

- Built a responsive React frontend with interactive course dashboards, reducing page load time by 40% through code-splitting and lazy loading. *(Performance optimization)*
- Designed RESTful APIs with Express.js & Node.js, handling 50+ concurrent requests/sec for video streaming and quiz submissions. *(Backend scalability)*
- Integrated MongoDB Atlas for real-time progress tracking, improving student completion rates by 25% with automated reminders and analytics. *(Database impact)*

PSZ-SARL Tunisia - Monastir, Sousse

08/2020- 12/2020

Senior Technician in Electronics

Responsible for preventive maintenance, correlative interventions, and optimization of electrical test modules to ensure system reliability and peak performance. Focused on proactive troubleshooting, system improvements, and minimizing downtime..

- Led preventive maintenance initiatives, conducting routine checks and interventions to ensure the longevity and optimal performance of electronic systems and equipment.
- Performed correlative interventions, identifying and resolving issues between interdependent systems to maintain smooth operations and minimize system failures.
 - Optimized electrical test modules, enhancing testing efficiency and accuracy through upgrades and recalibrations, improving the overall quality of output.

Mohamed Amine Saadani mohamedaminesaadani79@gmail.com

- Collaborated with engineering teams to implement improvements and adjustments to test equipment, ensuring they met evolving technical requirements and performance standards.

EDUCATION

GoMyCode – *Sousse, Tunisia*

Full Stack JS Developer– Web Development, December 2020

Amidiest – *Monastir, Tunisia*

English Conversation–B2 Level, December 2020

ISSAT – *Sousse, Tunisia*

Bachelor of Electronics, electrotechnics and automatics, June 2020

PROFESSIONAL SKILLS

- **Front-end development:** HTML5 CSS3 (Flexbox, Grid, responsive design), Tailwind CSS (utility-first workflows), Bootstrap, JavaScript ES6+ (OOP, async/await), React.js (Hooks, Context API, Suspense), Next.js (App Router, ISR), Redux Toolkit, Material UI, Ant Design, Webpack, Vite.
- **Product Tech Management:** Agile/Scrum methodologies, product roadmapping, technical documentation, feature prioritization, stakeholder management, UX/UI collaboration, metrics analysis (KPIs, OKRs), Figma (prototyping)
- **Backend Integration:** RESTful APIs, Node.js, Express.js, MongoDB (CRUD operations), Firebase (authentication, Firestore)
- **CMS & Digital Tools:** WordPress (theme customization), Meta Business Suite (ad campaigns, analytics)
- **CI/CD:** GitHub (branch strategies, PR reviews), GitHub Actions (CI/CD pipelines), Docker (containerization)
- **Productivity:** Microsoft Office (Excel, PowerPoint, Word), Ubuntu (CLI, Bash), Windows, macOS
- **Soft Skills:** Technical leadership, cross-functional collaboration, problem-solving, requirements analysis, mentoring, adaptability

LANGUAGE COMPETENCIES

- Arabic: native language
- French: fluent (speaking, reading, writing)
- English: fluent (speaking, reading, writing)
- German: basic
